Soft outside, ice cream inside

What is mochi?

A Japanese-style sweet: a soft dough of sweet rice flour wrapped around ice cream.

What makes ours different

Not only the size. A 100 g piece, special ice cream made with rich ingredients inside, and dough we make by hand from natural ingredients.

How to enjoy it

Keep it frozen. Take it out five minutes before, so the dough softens.

To share

Two crossing cuts with a small knife give four pieces — one jumbo, four people.
